Infocommunications Journal HE75

A PUBLICATION OF THE SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS (HTE)

Number 3

Volume XVI

MESSAGE FROM THE EDITOR-IN-CHIEF	
AI and ML techniques in various fields of Infocommunications – in the autumn issue of ICJ Pal Varga	1
PAPERS FROM OPEN CALL	
Utilizing Machine Learning as a Prediction Scheme for Network Performance Metrics of Self-Clocked Congestion Control Algorithm Ahmed Samir Jagmagji, 	2
An AI-Driven Intelligent Transportation System: Functional Architecture and Implementation	18
A Systemics Review for the Implication of Genitive AI in	
Higher Education Raghad Al-Shabandar, Ali Jaddoa, Taha A. Elwi, A. H. Mohammed, and Abir Jaafar Hussain	31
Implementation Guidelines for Ethologically Inspired Fuzzy Behaviour-Based Systems	43
Optimizing LSTM for Code Smell Detection: The Role of Data Balancing Nasraldeen Alnor Adam Khleel, and Károly Nehéz	57
Survey on Handover Techniques for Heterogeneous Mobile Networks	64
Dielectric Lens Antenna for Industrial Radar Applications Lajos Nagy	75
Broadside Gain Enhancement of Wideband Monopole	
Circular Shaped Antenna Using FSS for Sub-6 GHz Applications Tamara Zuhair Fadhil, Noor Asniza Murad, and Mohamad Rijal Hamid	82
Blockchain-based Deep Reinforcement Learning System for Optimizing Healthcare	
Ameer Hussein Morad, Győző Gódor, and Alwahab Dhulfiqar Zoltán	89
CALL FOR PAPER / PARTICIPATION	
IEEE NETSOFT 2025 / 11th IEEE International Conference on Network Softwarization IEEE NETSOFT, 2025, Budapest, Hungary	101
ADDITIONAL	
Guidelines for our Authors	100

SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS

Who we are

Founded in 1949, the Scientific Association for Infocommunications (formerly known as Scientific Society for Telecommunications) is a voluntary and autonomous professional society of engineers and economists, researchers and businessmen, managers and educational, regulatory and other professionals working in the fields of telecommunications, broadcasting, electronics, information and media technologies in Hungary.

Besides its 1000 individual members, the Scientific Association for Infocommunications (in Hungarian: HÍRKÖZLÉSI ÉS INFORMATIKAI TUDOMÁNYOS EGYESÜLET, HTE) has more than 60 corporate members as well. Among them there are large companies and small-and-medium enterprises with industrial, trade, service-providing, research and development activities, as well as educational institutions and research centers.

HTE is a Sister Society of the Institute of Electrical and Electronics Engineers, Inc. (IEEE) and the IEEE Communications Society.

What we do

HTE has a broad range of activities that aim to promote the convergence of information and communication technologies and the deployment of synergic applications and services, to broaden the knowledge and skills of our members, to facilitate the exchange of ideas and experiences, as well as to integrate and harmonize the professional opinions and standpoints derived from various group interests and market dynamics.

To achieve these goals, we...

- contribute to the analysis of technical, economic, and social questions related to our field of competence, and forward the synthesized opinion of our experts to scientific, legislative, industrial and educational organizations and institutions;
- follow the national and international trends and results related to our field of competence, foster the professional and business relations between foreign and Hungarian companies and institutes;
- organize an extensive range of lectures, seminars, debates, conferences, exhibitions, company presentations, and club events in order to transfer and deploy scientific, technical and economic knowledge and skills;
- promote professional secondary and higher education and take active part in the development of professional education, teaching and training;
- establish and maintain relations with other domestic and foreign fellow associations, IEEE sister societies;
- award prizes for outstanding scientific, educational, managerial, commercial and/or societal activities and achievements in the fields of infocommunication.
