Infocommunications Journal HE75 199-2024

A PUBLICATION OF THE SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS (HTE)

Number 4

Volume XVI

MESSAGE FROM THE EDITOR-IN-CHIEF Advances in Speech Recognition, Musical Anamnesis, Inter-ISP communication, MEC offloading and Software-Defined Radio Pal Varga	1
PAPERS FROM OPEN CALL Assessing the Efficacy of Adapters in Cross-Language Transfer Learning For Low-Resource Automatic Speech Recognition	2
Enhancing QoS for IoT Devices through Heuristics-based Computation Offloading in Multi-access Edge Computing	10
Enhancing Signal Processing Efficiency in Software-Defined Radio Using Distributed Arithmetic and Look-Up Table-Based FIR Filters	18
Analysis of Interactions Among ISPs in Information Centric Network with Advertiser Involvement	33
Towards Automated Musical Anamnesis for Music-based Intervention in Dementia Patients	45
CALL FOR PAPER / PARTICIPATION	
IEEE MeditCom 2025 / IEEE International Mediterranean Conference on Communications and Networking / Nice, France	54
IEEE/IFIP NOMS 2025 / Second IEEE Workshop on Generative AI for Network Management (GAIN 2025) / Honolulu, HI, USA	55
J3C 2025 / IFAC Joint Conference on Computers, Cognition, and Communication / Padova, Italy	57
ADDITIONAL Guidelines for our Authors	56

December 2024

ISSN 2061-2079

SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS

Who we are

Founded in 1949, the Scientific Association for Infocommunications (formerly known as Scientific Society for Telecommunications) is a voluntary and autonomous professional society of engineers and economists, researchers and businessmen, managers and educational, regulatory and other professionals working in the fields of telecommunications, broadcasting, electronics, information and media technologies in Hungary.

Besides its 1000 individual members, the Scientific Association for Infocommunications (in Hungarian: HÍRKÖZLÉSI ÉS INFORMATIKAI TUDOMÁNYOS EGYESÜLET, HTE) has more than 60 corporate members as well. Among them there are large companies and small-and-medium enterprises with industrial, trade, service-providing, research and development activities, as well as educational institutions and research centers.

HTE is a Sister Society of the Institute of Electrical and Electronics Engineers, Inc. (IEEE) and the IEEE Communications Society.

What we do

HTE has a broad range of activities that aim to promote the convergence of information and communication technologies and the deployment of synergic applications and services, to broaden the knowledge and skills of our members, to facilitate the exchange of ideas and experiences, as well as to integrate and harmonize the professional opinions and standpoints derived from various group interests and market dynamics.

To achieve these goals, we...

- contribute to the analysis of technical, economic, and social questions related to our field of competence, and forward the synthesized opinion of our experts to scientific, legislative, industrial and educational organizations and institutions;
- follow the national and international trends and results related to our field of competence, foster the professional and business relations between foreign and Hungarian companies and institutes;
- organize an extensive range of lectures, seminars, debates, conferences, exhibitions, company presentations, and club events in order to transfer and deploy scientific, technical and economic knowledge and skills;
- promote professional secondary and higher education and take active part in the development of professional education, teaching and training;
- establish and maintain relations with other domestic and foreign fellow associations, IEEE sister societies;
- award prizes for outstanding scientific, educational, managerial, commercial and/or societal activities and achievements in the fields of infocommunication.
