

Infocommunications Journal

A PUBLICATION OF THE SCIENTIFIC ASSOCIATION FOR INFOCOMMUNICATIONS (HTE)

June 2026

Volume XVIII

Number 2

ISSN 2061-2079

Authors, co-authors of the June 2026 issue	1
<i>PAPERS FROM OPEN CALL</i>	
Efficient Media Routing for Media over QUIC: Balancing Cost and Latency	2
Emulating the SDN-Enabled Computing Continuum through Lightweight Virtualization	9
Introducing Neural Mesh for Logical Synthesis Models	18
Design and Numerical Analysis of 45-degree Polarization Rotator for Quantum Cryptography	27
Supply Chain Logistics Demand Modeling and Abnormal Warning Based on Autoformer	32
Federated Reinforcement Learning for Load Balancing in O-RAN 5G and Beyond Networks	45
Convolutional and Variational Autoencoders with Supervised Classifiers for RF Spectrum Anomaly Detection	55
MTL-BERTNet: A Multi-Task Learning Framework for Aspect and Sentiment Analysis in MOOC Reviews	61
YOLOv8-Based Firearm Detection for Real-Time Video Surveillance Applications.....	72
Optimized Secure Clustering Scheme for Wireless Sensor Networks Vincent Karovič, Olena Semenova, Maksym Prytula, Volodymyr Martyniuk, and Vladyslav Kuzniak	79
Synchronized Real-time Communication In The Eclipse Arrowhead Framework	91
<i>CALL FOR PAPER / PARTICIPATION</i>	
IEEE/IFIP CNSM 2026 / AnServApp / The International Workshop on Analytics for Service and Application Management Madrid, Spain	99
IEEE ICC 2027 / IEEE International Conference on Communications Washington DC, USA	101
<i>ADDITIONAL</i>	
Guidelines for our Authors	100

Technically Co-Sponsored by

Who we are

Founded in 1949, the Scientific Association for Infocommunications (formerly known as Scientific Society for Telecommunications) is a voluntary and autonomous professional society of engineers and economists, researchers and businessmen, managers and educational, regulatory and other professionals working in the fields of telecommunications, broadcasting, electronics, information and media technologies in Hungary.

Besides its 1000 individual members, the Scientific Association for Infocommunications (in Hungarian: HÍRKÖZLÉSI ÉS INFORMATIKAI TUDOMÁNYOS EGYESÜLET, HTE) has more than 60 corporate members as well. Among them there are large companies and small-and-medium enterprises with industrial, trade, service-providing, research and development activities, as well as educational institutions and research centers.

HTE is a Sister Society of the Institute of Electrical and Electronics Engineers, Inc. (IEEE) and the IEEE Communications Society.

What we do

HTE has a broad range of activities that aim to promote the convergence of information and communication technologies and the deployment of synergic applications and services, to broaden the knowledge and skills of our members, to facilitate the exchange of ideas and experiences, as well as to integrate and

harmonize the professional opinions and standpoints derived from various group interests and market dynamics.

To achieve these goals, we...

- contribute to the analysis of technical, economic, and social questions related to our field of competence, and forward the synthesized opinion of our experts to scientific, legislative, industrial and educational organizations and institutions;
- follow the national and international trends and results related to our field of competence, foster the professional and business relations between foreign and Hungarian companies and institutes;
- organize an extensive range of lectures, seminars, debates, conferences, exhibitions, company presentations, and club events in order to transfer and deploy scientific, technical and economic knowledge and skills;
- promote professional secondary and higher education and take active part in the development of professional education, teaching and training;
- establish and maintain relations with other domestic and foreign fellow associations, IEEE sister societies;
- award prizes for outstanding scientific, educational, managerial, commercial and/or societal activities and achievements in the fields of infocommunication.
